David J. Bradley, Clerk
- Laredo Division

In Full Faith and Credit of: "Indeed, no more than affidavit(s) is necessary to make the prima facie case." United States v. Kis, 658 F.2d, 526, 537 (7th Cir. 1981): Cert. Denied, 50 U.S. L.W. 2169: S.Ct. (March 22, 1982).

I, Baudel Ortiz, Affiant, Federal Medical Center, Box 4000, Rochester, MN., 55903-4000, being of sound mind and over the age of 18 years, do hereby have personal knowledge of the facts listed below. All facts stated herein are true and correct being admissible, and if called upon as a witness, Affiant will testify to their veracity.

STATEMENT OF FACTS

1. I am over the age of 18 and am mentally capable of stating the following facts,
2. Before I entered a plea of guilty in criminal case, 5:05-CR-229-5, in the Southern District U.S. Court of Texas, my Trial Counsel did not inform me that I would be facing deportation as a result of pleading guilty,
3. Before I entered a plea of guilty in the same criminal case, in the same Court, my Trial Attorney has led me to believe that the maximum amount of time I would be sentenced to serve in a federal prison was 63 months,
4. Though the Court stated the statutory maximum was 10 years for the crime I plead to, I still understood the sentence would be in the range of what my Trial Attorney had told me it would be,
5. Before I plead guilty, my Trial Attorney and I met once to become acquainted, going over the charges briefly, then talked the day before I plead guilty,
6. After I plead guilty, my Trial Attorney and I saw each other once, when he gave me his condolence for the sentence I received. We did not review any "Direct Appeal" issues together,
7. I assert that I was not a "leader" in the alleged conspiracy,
8. I assert, I never placed any person in the same compartment of a horse trailer with a horse.

JOURNAL OF THE

JUNE 18

hereupon, at my request, the Attorney General on March 19 instituted an action and obtained an injunction in the United States District Court for the Eastern District of Tennessee. This order enjoined both the Corporation and the Council, and all persons in active participation with them, from engaging in any strike or lock-out or from interfering with normal continuance of work, or from making any change in terms or conditions of employment other than by mutual agreement.

On March 24 I reconvened the Board of Inquiry. Negotiations between the parties continued, with the assistance of the Federal Mediation and Conciliation Service. On May 18 the Board of Inquiry submitted to me its second report, stating that the position of the parties remained unaltered and the dispute unsettled.

On June 1 and 2 the National Labor Relations Board conducted a secret ballot of the employees to ascertain whether they wished to accept the final offer of settlement as stated and made by the employer. The employees, by a vote of 771 to 26, rejected the employer's last offer. On June 7 the National Labor Relations Board certified to the Attorney General the results of this election. On June 8 the employees at a union meeting took action looking to a possible stoppage if the injunction were lifted and if the employer unilaterally placed in effect the terms proposed in its final offer.

On June 10, pursuant to section 210 of the Labor Management Relations Act, the Attorney General moved the court to discharge the injunction. The injunction was discharged on June 11.

During this period, the parties continued negotiations, with the assistance of the Federal Mediation and Conciliation Service. On June 15 the parties reached agreement on the terms of a new contract.

All parties to this dispute and the Government agencies concerned complied with all legal and procedural requirements of title II of the Labor Management Relations Act, 1947.

A number of additional facts concerning this dispute are set forth in the first and second reports of the board of inquiry. Copies of these reports are transmitted to the Congress with this message.

Both parties are to be commended for achieving settlement of this dispute without an interruption of work.

The dispute at Oak Ridge has raised some question, nevertheless, as to the sufficiency of present collective-bargaining methods in atomic-energy installations.

This question is somewhat different from others which have arisen in the past. On the one hand, it is clear that the national security and the development of the beneficial arts and sciences are bound up with the progress of our atomic-energy program. Thus, every dispute which threatens to seriously im-

pair that program imperils the national health and safety.

On the other hand, it is equally clear that the progress of our atomic-energy program requires the support and drive of broad sectors of the American economy. In order to encourage such support, the Atomic Energy Commission has lodged in its contractors a large measure of responsibility and authority. The progress of the program is equally dependent upon the full and willing support of the men and women who work in atomic-energy plants and laboratories.

Under these circumstances, it is imperative that the most successful techniques of the collective-bargaining process should be adopted for the atomic-energy program.

The objective should be twofold: The parties should continue to enjoy the maximum of voluntary action and freedom of choice; secondly, the public interest must be protected at all times.

I believe that special study should be given to the problem of peaceful and orderly settlement of labor disputes in Government-owned, privately operated atomic-energy installations, such as those at Richland, Wash.; Oak Ridge, Tenn.; Los Alamos, N. Mex.; the Argonne National Laboratory, Chicago, Ill.; and others.

I propose, therefore, to establish a commission composed of men having expert knowledge in the field of labor relations, to study this problem and to make such recommendations as they may find necessary. The commission should explore the question whether any special legislation should be enacted to protect the national interest without depriving management or labor organizations of the initiative and freedom necessary for the progress of our atomic-energy program. The commission should study ways and means of adapting to the atomic-energy program the best of our experience in the complex field of labor relations. The commission should concern itself also with special aspects of the problem, such as questions of bargaining representation, uniformity of working conditions and wages, and procedures for grievance handling.

The commission should concern itself, in short, with the broad code of conduct which should be observed by management and labor in their relations with each other in this vital program.

In appointing this commission I shall request the advice of the Atomic Energy Commission and the Joint Committee on Atomic Energy both as to the membership of the commission and the specific questions to be studied.

I believe that the report of this commission, which should be submitted as soon as possible, will be of great value in guiding contractors, labor organizations, and the Government in this new and vital field. I am confident that this is the best avenue to follow to achieve and maintain that proper balance between freedom and responsibility which is the

tradition in all our economic relations, including those between management and labor.

HARRY S. TRUMAN.
THE WHITE HOUSE, June 18, 1948.

The message was referred to the Committee on Education and Labor and ordered to be printed.
